SUMMARY

Computer Science and Engineering undergraduate with CGPA 9.03 and solid competencies in Java, Spring Boot, MySQL, REST APIs, and Data Structures & Algorithms. Solved 400+ problems on LeetCode with proven problem-solving abilities in competitive programming contests. Hands-on experience developing secure backend architectures with JWT authentication, relational database modeling with Spring Data JPA/Hibernate, and responsive web applications. Seeking an entry-level Software Developer or Java Backend Developer role.

EDUCATION

KPR Institute of Engineering and Technology – Coimbatore, India Sep 2024 – May 2028
B.E. in Computer Science and Engineering **CGPA: 9.03**

St. Thomas Higher Secondary School – Pattukkottai, India March 2024
Higher Secondary Education (Tamil Nadu State Board) **Percentage: 94%**

TECHNICAL SKILLS

Programming Languages: Java, Python, C, JavaScript
Backend Technologies: Spring Boot, Spring Data JPA, Hibernate, REST APIs, JWT Authentication
Web Technologies: React, HTML5, CSS3, JavaScript, LocalStorage
Databases & Cloud: MySQL, Supabase (PostgreSQL), Cloudflare Workers
Core Fundamentals: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks
Developer Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA

INTERNSHIP EXPERIENCE

Infosys Springboard – Java Backend Development Intern June 2026 – August 2026
Virtual Internship 7.0 | Smart Governance Platform (B1) | June 2026 – August 2026

- Engineered RESTful API endpoints in Java and Spring Boot for user management, issue tracking, and service workflows.
- Implemented secure stateless authentication and role-based access control (RBAC) using JWT and Spring Security.
- Integrated Spring Data JPA and Hibernate with MySQL, designing normalized database schemas and optimizing query execution.
- Earned official Infosys Java Foundation and Python Foundation professional certifications during the internship.

Technologies: Java, Spring Boot, Spring Data JPA, Hibernate, JWT, MySQL, REST APIs, Postman

MainCrafts Technology – Full Stack Web Development Intern June 2026 – July 2026
Virtual Internship | Full Stack Web Development (Intern ID: MT6576)

- Completed a 4-week internship focused on frontend development and responsive web architecture.
- Developed responsive multi-page web interfaces using HTML5, CSS3 Flexbox/Grid, and vanilla JavaScript.
- Built an interactive contact form module with client-side state persistence using LocalStorage and dynamic form validation.
- Awarded an Internship Completion Certificate and a Letter of Recommendation upon timely completion.

Technologies: HTML5, CSS3, JavaScript, LocalStorage, Responsive Design, Git

PROJECTS

CivicPulse – Smart Municipal Governance Platform github.com/Abu1820/CivicPulse

- Developed a full-stack civic reporting platform enabling citizens to report and track municipal issues like potholes and drainage.
- Designed RESTful API endpoints in Spring Boot for issue creation, real-time status updates, and administrative resolution workflows.
- Integrated React frontend with Spring Boot backend, implementing JWT authentication for secure client-server communication.
- Designed a normalized MySQL database schema with Spring Data JPA and Hibernate for reliable data persistence and retrieval.

Technologies: Java, Spring Boot, Spring Data JPA, Hibernate, JWT, MySQL, React, REST APIs

Uniora – Government Scheme Eligibility Platform Seed Funded – KPRIET

- Built an eligibility-matching engine mapping citizens to applicable government welfare schemes based on demographic criteria.
- Designed for offline accessibility and low-connectivity regions utilizing Cloudflare Workers edge caching and Supabase.
- Project selected for and received institutional Seed Funding from KPRIET for social impact and technical feasibility.

Technologies: Python, JavaScript, Supabase, Cloudflare Workers, HTML, CSS

KEY ACHIEVEMENTS & PUBLICATIONS

Book Co-Author – Amazon Kindle: Co-authored *"Mastering Recommendation Systems: From Basics to Breakthroughs"* amzn.in/d/j7muHtb
Comprehensive guide covering AI recommendation algorithms, collaborative filtering, and deep learning architectures.

CIT CRYPTERA 2026 – 1st Prize: Won first place and ₹1,500 cash prize in Technical Puzzle Clash covering Operating Systems, DBMS, and Networks at Coimbatore Institute of Technology (Jan 2026).

IEEE CodeQuest – 2nd Prize: Secured second place in competitive coding event (Logic Sprint, HackerRank Arena, Mystery Code) by IEEE Education Society, KPRIET (Aug 2026).

LeetCode: Solved 400+ problems covering arrays, strings, hashing, sliding window, sorting, and heaps.

Event Organiser – Fiestaa'26: Co-organised the "Reflex Rush" event during KPRIET college culturals (Feb 2026).

CERTIFICATIONS

NPTEL – Industry 4.0 and Industrial Internet of Things: Elite + Silver (80%), IIT Kharagpur (Prof. Sudip Misra)
Kerala Blockchain Academy: Certified Blockchain Associate (CBA Online)
Infosys Springboard: Java Foundation Certification | Python Foundation Certification
CodeChef: Learn Java Course
